

Rohit Sharma

Pune, Maharashtra | rohit.sharma.dev@example.com

Professional Summary

Backend developer with 3 years experience crafting REST and GraphQL APIs. Hands-on with Kubernetes and CI/CD. Enjoys mentoring interns and turning requirements into clean, testable code.

Professional Experience

Software Engineer – NimbusWare, Pune (Jan 2023 – Present)

On-site

- Developed GraphQL gateway in Node.js to unify 6 microservices, reducing client round-trips by 60%.
- Implemented feature flags and canary releases with Argo Rollouts; decreased incident rate during deploys.
- Automated schema validation and codegen, cutting API defects caught in QA by 35%.

Backend Developer – DeltaOps, Pune (Jun 2021 – Dec 2022)

Hybrid

- Created RESTful services with Django and DRF; maintained 85% unit test coverage.
- Migrated workloads to GKE; built Helm charts and secrets management with HashiCorp Vault.
- Collaborated with frontend on performance budgets and introduced caching with Redis.

Education

B.Tech in Computer Engineering – VIT Pune (2017 – 2021)

Ranked top 10% of class

Technical Skills

Languages & Frameworks: Python, Django REST Framework, Node.js, GraphQL
